

Activeion Ionator

Be a leader in the Green Cleaning Revolution

Clean without chemicals, kill harmful bacteria and protect the public health

The ionator is a hand-held general purpose cleaning device that transforms tap water into a powerful cleaner and sanitiser that works as well as or better than other general-purpose, chemical and “green” cleaning products. One of the only cleaners in the world without a chemical-related health warning label, the ionator EXP is ideal for cleaning:

- Benches & worktops
- Stainless steel
- Glass and mirrors
- Tables & chairs

The versatility of the product allows the user to replace many of today’s most common daily-use cleaners. With the ionator, professional cleaners everywhere now have a sanitising option that saves time, reduces costs and protects the environment.

- Increased Savings
- Safer Employees
- Greater Simplicity
- Greener Environments
- Healthier Spaces

The ionator EXP is powered by built-in rechargeable batteries. The batteries are designed to last 5+ years in a commercial application. The ionator EXP comes with a 2-year limited warranty. Approximately 6 refills per charge (3 litres)

\$495 + gst

Includes: rechargeable batteries and charger

Activeion Ionator

Independent third-party testing demonstrates that the Ionator kills 99.9 percent of common bacteria (E Coli, Salmonella, MRSA, Pseudomonas, H1N1, Listeria and E.Coli O157:H7) with a simple six-second spray of nontoxic ionized water.

BEFORE

The germ E. coli before being sprayed with Activeion technology.

AFTER

The germ E. coli after a two-second spray of Activeion technology.
