

## KM100/100 Ride on Sweeper

**Comfortable and modern ride-on sweeper for professional applications outdoors and indoors**

Code: KM100/100R

- Easy to operate with clearly laid out control panel.
- Waster container can be emptied with little effort, simple changing of roller brush and filter.
- Filter is also washable and cleaned automatically whenever the sweeper is turned off.
- Side main brush feature hydraulic drive and are controlled pneumatically – requires less maintenance and is more reliable.
- Parking brake engaged automatically when sweeper is switched off.
- Unit operates on the overthrow principle, i.e. sweepings are thrown over the roller brush into the waste container situated behind it.
- The floating roller brush adapts automatically to uneven floors.
- A pedal-operated bulk waste flap allows easy pickup of bulky items, e.g. drinks cans, gravel, grit or wet leaves.
