

KMR120/150R Ride On Sweeper

Code: KM120/150R

- The KM102/150R is particularly suitable for cleaning outdoor areas, e.g. parking bays, storage areas, footpaths as well as multi-storey car parks.
- The KM120/150R is highly manoeuvrable and simple to operate thanks to its infinitely variable, pedal-controlled forward and reverse travel speed and user-friendly front wheel steering.
- Roller brush with floating or with fixed settings.
- The KM120/150R operates on the modern overthrow principle which means up to 100% of the waste container's capacity is used.
- Operator has excellent view of work area because of forward-mounted driver's seat. Stones, drinks cans and other large items can be collected by opening the bulk waste flap.
- A powerful vacuum and efficient 9 m² filter system guarantee dust-free sweeping.
- An automatic filter shaker keeps the filters functioning properly and helps avoid operator errors.
- Filters are washable and have an extremely long service life.
- The waste container can accommodate up to 140 kg of sweepings.
- The hydraulic lift is not only user-friendly, it also saves time and money because it enables the sweepings to be dumped directly into a refuse skip.

Motor – Choice of :	24V Battery Powered 9.4 kW Honda Petrol 7.35 kW Yanmar Diesel
Working Width	850mm main brush 1200mm with side brush
Travel Speed	8 km/h
Area Swept	11,600m ² /h
Capacity	150 ltr.
Hill Climbing Ability	18%
Filter Area	9.0 m ²
Dimensions	1900 x 1230 x 1390
Weight	480 kgs

Hydraulic Dump
