

KÄRCHER

CODE: KM70/20

KM70/20 C Manual Sweeper

Mechanical walk behind sweeper, for quick clean ups in small factories, car parks and carpeted areas

- Easy, fatigue free operation
- Robust frame
- Main brush driven by both wheels makes sweeping in right hand bends and left hand bends possible.
- The main brush sweeps the dirt forwards into the container. The advantages are:
 - Reduced physical effort
 - Easy to handle
 - Less dust is generated
- The roller brush can be adjusted easily and exactly to suit the surface being cleaned (6 steps)
- Continuously variable adjustable side brush
- Side brush is driven by a belt from the back wheels
- Side brush arm is swivel mounted and disengageable
- Low dust by air filtration
- Adjustable handle (3-times), with very good ergonomics
- Hinged handle makes for easy storage (reduces space required).

**Heavy Duty
Push Sweeper**

Area Swept	2800 m ² /h
Capacity	42 litre
Working width	700 mm
Weight	23 Kg
