

KM85/50 BAT

CODE: KM85/50

Top of the line battery powered walk behind sweeper: compact, manoeuvrable, and ruggedly built

- Heavy duty HDPE plastic housing, corrosion-free and low weight
- Long working time possible, increasing productivity
- Main brush with nylon bristles as standard
- Simple controls for ease of use
- One-piece double-side frame made from high density plastic)
 - Robust, withstands hard impacts
 - Long life-time
 - Reduced weight reduces power consumption.
 - Reduced noise
- Large impact-resistant light and mobile debris container (50 litre) with integrated castor wheels makes emptying easy
- Large (2.3 m²) rot-proof polyester filter (washable) with manual filter cleaning system
- This sweeper can also be operated when it is raining or the surface is wet by opening the debris container and the rot-proof polyester filter is protected from humidity, and the machine operates without vacuum.
- All controls at waist height for effortless use
- Petrol powered option

Area Performance	4860m ² per hour
Working Width (Main Brush Only)	610mm
Working Width (with SSB)	850mm
Travel Speed	4.5 km per hour
Waste Container Capacity	50 litres
Drive Unit	Direct Current, 750 W / 12 V / 35A
Weight (total)	115kgs
Measurements (l x w x h)	1355 x 910 x 1155
