

## KMR1700 Ride on Sweeper

Available in Petrol and Diesel Versions

Code: KMR1700

- The KMR 1700 has powder coated steel chassis and covers with sturdy bump guard to protect the unit from damage
- It has a rugged three wheel undercarriage with rear steering for maximum mobility
- A hydraulic transmission is used for drive, side and main brush, suction turbine and a high level bin dump system – up to 1600mm
- 3 settings for main brush include: fixed mounted for smooth surfaces, suspended in floating mounts for uneven surfaces, and suspended with extra down pressure for dips and hollows.
- Filter system and automatic cleaning – washable round polyester filter removes 99.9% of airborne particles (BIA C Category)
- 45 litre fuel tank provides 16.5 hours operation
- Petrol version can be converted to LPG for indoor applications.

### TECHNICAL DATA

<b>Capacity</b>	300 ltr
