

## Pacer PB

### Cordless Backpack Vac

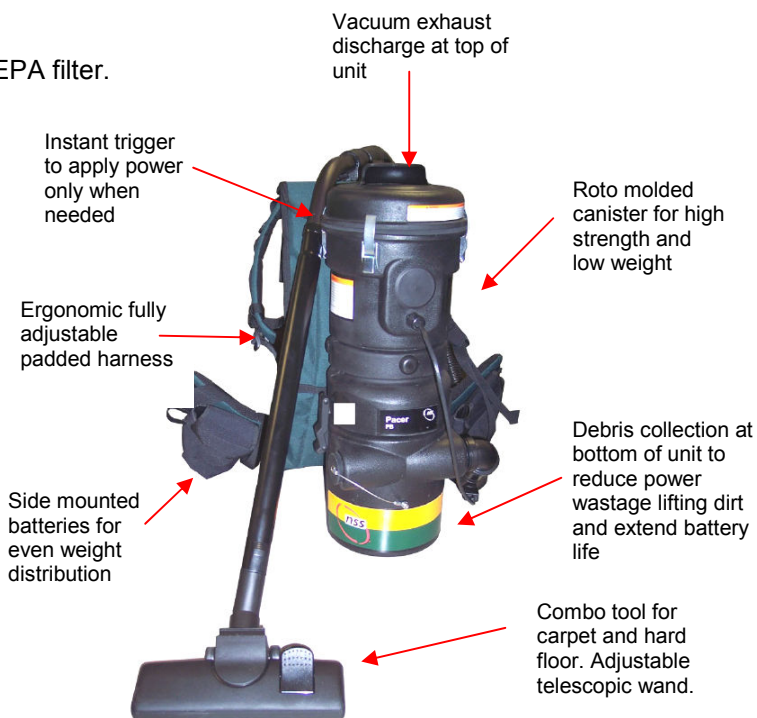

For unrivalled productivity, the Pacer PB has the run-time, features, and performance to supercharge your vacuum process. The mobility and enhanced safety of a cordless design, combined with low noise levels make the Pacer PB ideal for spot cleaning in commercial situations.

- Instant trigger and cordless design provide unparalleled productivity – spot vacuum up to 2500 m<sup>2</sup>/hour.
- NiMH battery technology has double the charge density of traditional batteries, providing up to 50% more run time as well as lighter weight.
- Ergonomic harness adjustable at the shoulders, chest, and waist.
- Very quiet 65 dB operation means the Pacer PB can be used for daytime cleaning in occupied areas.
- Heavy duty rotationally moulded polyethylene construction for commercial use.
- Cordless design reduces the risk of trip/fall accidents, eliminates damage to surrounding, and saves repair costs on frequently damaged cables.
- 3 stage bagless filter system with optional HEPA filter.

### Battery Powered

<b>Vac Motor</b>	24V Twin Fan
<b>Air Flow</b>	33 L/sec
<b>Batteries</b>	NiMH 12V 9.5 AH
<b>Run Time</b> (Per set of batteries)	30-35 minutes constant 1-2 hours spot cleaning
<b>Noise Level</b>	65 dB
<b>Capacity</b>	7 L with bagless filter system
<b>Filtration</b>	99.7% @ 5 micron
<b>Weight</b>	Machine 6.3 Kg Batteries 3.6 Kg

- The battery charger monitors and automatically charges up to 2 sets of batteries
- 60% in 60 minutes
  - 90% in 90 minutes
  - Full charge in 2 hours
