

## Options

### STE1066 Gulpa - waste Management System

**\$1,727**

This is the ultimate waste system for commercial carpet cleaning and flood work. The advantage is in the design, the Gulpa is made out of a clear Perspex box which enables you the user to show your clients exactly what sort of volumes of dirt are being removed, and what giving you longer vac motor life. The Gulpa gives your machine an auto waste pump feature, with no need to manually drain waste.

### STE1060 Booster - vacuum booster

**\$1,445**

The Booster is an added vacuum air flow booster pack designed to work inline with a portable machine to create more vacuum suction for jobs requiring more drying time or for you to use more hose. Housing 2x1200 Watt 2 Stage vac motors with a genuine wet seal on bearings.

### STE1061 Sizzler - inline heater

**\$1,809**

The "Sizzler" is a 1000 psi inline pressure water heater that gives more heat to your portable. it operates on 10 amp power and is ideal to work inline with a portable unit, for the cleaning of upholstery and other applications where heat can be lost through water solution lines. It is fitted with a stainless steel inner heater coil rated at 3000 psi and an adjustable thermostat with a safety shut off.
