

TENNANT 3120 38 & 46cm Dual Motor Uprights

CODES:
TEN3120/38
TEN3120/46

User-friendly design plus unsurpassed performance

- Withstands vigorous, everyday use with ABS/polycarbonate polymer construction
- and Tennant's quality engineering.
- Tennant's 3120 upright vacuum uses interchangeable replacement and service parts, making your inventory easier to manage.
- Discreetly vacuum, day or night, with quiet-operating vacuum (69dBa).

Key reliability and performance features

- Dual motor performance means one motor spins the dynamically balanced, high-speed brush while the other creates powerful, dirt-lifting suction.
- Lightweight, ergonomic-grip handle and knuckle guard minimises user fatigue and adjusts to users of different heights.
- Easy-access, top-mounted crevice tool makes baseboards and other small areas easy to clean, and the longer, higher-stretching hose maximises your reach.
- Vacuum bags with 3-ply filtration and a generous 4.5 litre capacity increase productivity and sanitation.
- On-board tool storage, including an extra bag, increases productivity by minimising frequent trips to supply storage.

DUAL MOTOR	3120/38cm	3120/46cm
Brush Drive System		
Dynamic balanced brush	4500 rpm	4500 rpm
Vacuum System		
Motor airflow	42 l/sec	42 l/sec.
Motor waterlift	2000 mm	2000 mm
Motor HP	1.07 hp	1.07 hp
Debris Recovery/Filtration		
Vacuum bag capacity	4.5 litre	4.5 litre
Air filtration	5 level (optional HEPA)	
Recovery System		
Vacuum hose length	38 cm stretches to 160 cm	
Vacuum wand Telescopic	53 cm to 89 cm	
Power Cord		
Power cord length	15 m	15 m
Dimensions/Weights		
Product height	112 cm	112 cm
Product length	33 cm	33 cm
Product width	38cm	46cm
Product weight (without cord)	8.3 kg	8.7 kg

Only Tennant vacuums are approved by the National Asthma Council of Australia (NACA), 'Sensitive Choice' program as products that reduce the triggers of asthma and allergies.
