

Tennant 3640

Industrial Walk Behind Sweeper

Code: TEN3640

- The Model 3640 sweeper can pick up everything from sand to litter and has a vacuum and filter system to control dust.
- The Model 3640 features three speeds to ensure the correct speed for your exact - operating conditions, high-capacity filter, adjustable control handle and many optional accessories.
- The 3640 does one hour's hand sweeping in 10 minutes and cleans up to 6 times faster than using the manual method.
- Powered by a quiet and fume free battery system.

Key reliability and performance features

- Variable speed propelling system reduces user fatigue.
- When adapted for outdoor use, the 3640 goes where other machines will not, including over uneven surfaces.
- Keep maintenance simple with the easy to access engine or battery and no tool brush changes.
