

CODE: TENS12

## Tennant S12 Compact Battery Rider Sweeper

- The Tennant S12 is a very compact battery-powered rider sweeper with a sweeping path of 900 mm.
- Due to its excellent manoeuvrability and retractable side brush it can easily reach tight corners.
- The hopper pops out easily for quick emptying, brushes can be changed without tools and filter cleaning is a snap.
- Low effort steering for low operator fatigue.
- The front side brush and the 700 mm main brush sweep up 85 L of litter and debris into its hopper.
- The S12 also utilises a standard dust flap for picking-up bulky debris.
- Overthrow sweeping system ensures consistent performance even with worn brushes
- Sweep indoors and outdoors, on hard floors and carpet for maximum versatility
- Reduce operator fatigue with slide-out hopper
- Increase productivity with one or two side brushes
- Robust construction resists strong impacts and increases machine life
- Quick & easy brush and filter change

### Wide variety of uses

The S12 rider sweeper is ideal for sweeping indoors and outdoors such as warehouse and distribution centres, parking areas, retail facilities, as well as contract cleaning.
