TENNANT T1 BATTERY

Powerful & Compact Battery Scrubber for Small Areas

Cordless design provides safe, flexible cleaning

- The T1 Battery Micro-Scrubber eliminates cord hazards and constraints, so facilities can be cleaned regardless of the time of day.

Scrubber can be used and recharged multiple times a day

- An industry first in this category, the T1 Battery Micro-Scrubber with the lithium-ion battery is a multiple-use, daily cleaning tool that is virtually always ready to clean.
- Compared to standard batteries, lithium-ion battery technology lasts up to 20 times longer in high frequency, quick charge applications.

Compact, manoeuvrable design and powerful scrubbing action

- At 68 dB, the T1 Battery Micro-Scrubber cleans small, congested areas safely and efficiently without disturbing customers, patients, students or employees.
- The T1 Battery Micro-Scrubber replaces mop and bucket cleaning and features excellent water recovery to reduce slip and fall accidents.
- This compact scrubber is perfectly sized to handle spills, front entrance ways or vestibules, check out aisles, cafés, "back of house" projects and touch ups any time of day.

Many Applications

The versatile T1 Battery Micro-Scrubber is a perfect fit for these and other facilities:

- *Retail* – cordless design allows cleaning in congested areas
- *Healthcare* – quiet operation allows cleaning in patient rooms
- *Education* – low profile allows cleaning under tables and desks

Key available accessories:

3 brush types: soft nylon, polypropylene, and abrasive bristle

Easy to remove and clean tanks with 10 year warranty

Technical Information

Cleaning path	38 cm
Capacity	9.5 / 12.9 L
Brush Pressure	17 Kg
Pump	65 psi
Noise Level	68 dBA
Battery	12V - up to 1 hour run time
Weight	50 kg
Dimensions	690x500x600 mm

Simple recharging of battery

Easy to clean and change brush

Folding handle for storage & Transport

Machine Options:

Tennant T1 AGM Battery	\$29.50 per week
Tennant T1 Lithium Ion Battery	\$33.85 per week

Battery Options:

Battery Type	Max Run Time	Charge Cycles	Weight	Full Charge	Quick Charge	Opport. Charge	Warranty
AGM	45 minutes	250-300	32 lbs/ 14.5 kg	6-8 hrs.	N	N	6 months pro-rated
Lithium Ion	60 minutes	2000-3000	15 lbs/ 6.8 kg	3 hrs.	Y	Y	2 years pro-rated
