

TENNANT V5 DRY VACUUM

CODE: TENV5

- The Tennant V5 is one of the most versatile and compact dry canister vacuum cleaners in the market place.
- High vacuum performance, low sound level and a robust design guarantees optimum cleaning performance on all kinds of carpet and hard flooring surfaces.
- The Tennant V5 features improved filtration levels and an optional synthetic bag which provides higher suction performance, increased productivity, and a better air quality.
- Easy maintenance and low cost of ownership makes it the most valuable choice for professional vacuum cleaning.

FEATURES

Powerful suction

BENEFITS

Increases productivity, effective cleaning

Low sound level

Suitable for use in noise sensitive environments

Robust design

Durable, safe and low life cycle cost

Light-weight

Easy to operate and transport

Easily accessible filter compartment

Simple maintenance, higher productivity

Optional cloth bag and HEPA filter

Higher filtration, long runtime, and increased productivity

Technical Details

Power consumption (max.)

1150 W

Airflow

50 L/s

Water lift

21 kPa

Capacity paper filter bag

8 L

Vacuum hose diameter

32 mm

Sound level

58 dB(A)

Dimensions

40x37x35

Cable length

12.5 m

Machine weight

5.5 kg

Only Tennant vacuums are approved by the National Asthma Council of Australia (NACA), 'Sensitive Choice' program as products that reduce the triggers of asthma and allergies.
